| 804 | 960 R; another 1814-B. With the top of head of Charles IIII and DE very clear. Below the shield is clearly evident old parts of "179." Reverse has pillars best noted when held in position K 12. Prac. Unc. | | |
| 805 | 960 R; another 1814-B. There is clear cut date and can be noted quickly if one holds the crown in K-1 position. The date appears in the denticles between the letters (which are upset) when looking for the date. (PORT) the 8 is most clear between the "R" and "T". The pillars may be noted clearly when holding the reverse in K 12½ position. Prac. unc. | | |
| 806 | 960 R; another 1814-B. By turning the coin in K 6 position (crown facing down; the date 1805 is very clearly defined. Prac. unc. | | |
| 807 | 960 R; another 1814-B. By turning this coin in K 5½ position one can read the "797" of the old date with the naked eye. Prac. Unc. | | |
| 808 | 960 R; 1815-B. By turning the crown in K 1 position the old date 1813 for Ferdinand VII is clearly defined. Ext. Fine | | |

| 811 | 960 R; 1816 B. The old date "09" is fairly clear in between the letters of "PORT" when the crown is held in K 12½ position. Prac. unc. | | |
| 812 | 960 R; 1816-B. By holding this coin with the crown in K 6½ position a fairly clear cut 1789 date appears. "HISPAN" is very clear. Ext. Fine | | |

| 814 | 960 R; 1817-R. The pillars etc. are very clear if one wants to fuss, I'm sure the old date could be distinguished. V. Fine. | | |

815	960 R; 1818 R; John VI. Crown over the value 960, date and mint mark within the wreath. Reverse has Portugese arms over the old Spanish arms. Coin seems to have been buffed but is still extremely fine. SDNSA No. 2

820	960 R; 1820-R; This coin was struck over a Peru 8 reale piece. Starting at SIGN the mint mark "LME.8R" and assayers initials are very clearly defined to the naked eye. Again struck on a smaller sized planchet. Prac. Unc.	
821	960 R; 1820 R; This definitely is the clearest date that we have ever seen on an overstruck coin. One does not need a glass to see this date, but for practical purposes turn coin to K 11 position and the date shows as boldly as the 1820 Brazilian date. REPUBLIC OF MEXICO

Coinage of the Republic of Mexico. Obverse, a Liberty Cap in rays, at lower margin the Value (8.R.) Mint; Date; Silver Content. Reverse. A eagle with a snake, perched on a cactus and rock. Above the wording, Republica Mexicana.

The Coins of Alamos Mint

Mint marks are (a) and (As), which are herewith omitted in the following listing, but the important Mint master initials naturally are noted, with important notations.

1046	1865—8 Reales, Mint master initials PG; mostly clear and readable. Weak or scraped after the mint masters initials, a little scraping at the eagles left wing. The coin has 3 or 4 Chinese chop marks on both obverse and reverse. Save for the foregoing defects mentioned, the coin is still fine and Very scarce. RRR. Listed at 120.00 in Utberg. Brought \$65.00 in the 1958 Christensen sale.	60.00
1047	1868—8R. DL; several chopmarks both obverse and reverse. Many die cracks and we might add a few scratch marks that were used as bankers so-called "chop" marks. V. Fine and again RRR. Not listed in the 1958 Christensen sale. Listed in Utberg at	60.00
1048	1869—8R. DL; Now the mint mark is (As), the foregoing two lots had only (A). About five small chopmarks. V. Fine RRR. Not in 1958 sale. Listed in Utberg at	60.00
1049	1870—8R. DL; Mint Mark (A) again used. The coin was retooled on the obverse; and purchased as V. Fine. We agree only that the Reverse is V. Fine. Several small chops on both sides. Not in the 1958 sale. Listed in Utberg at	60.00
1050	1873—8R. AM; The mint mark (A) is used on the date; The obverse has many fine die cracks. A simple tiny punch-chop between (AM) of Republica Mexicana. A dotted-like snake which is separated below the eagle's beak. RR. V. Fine. Sold in the 1958 sale at 12.00 Ut. Lists at ..	30.00
1051	1874—8R. A; DL; Again the dotted-like snake is now connected, but only faintly under the eagle's beak; A few simple chop marks. Ext. Fine RR Brought 11.00 in the 1958 Sale, Ut. Lists at ..	25.00
1052	1875—8R A; DL; Very good to Fine. There is a round hole design in the star which preceeds the value 8R. The (7) in date was punched in too low and now the second (7) which is larger and too high. A few design chops. Unlisted in Utberg, as he does not list varieties, but this date is priced at 25.00. We feel that it should exceed this estimate. Not in the 1958 sale.	
1053	1876—Now the mint mark (as); D. L. Several interesting ornate chops. A very blobby 6 in date. RR; Str. V. Fine. Brought 12.00 in the 1958 Sale. Ut lists at	20.00
1054	1877—Again the mint mark (as); DL and we will omit discussing this from now on out since the balance that we are listing are denoted this way. This coin has several chops and several scratch-like "bankers" marks. Fine RR Sold at 5.00 in the 1958 Sale. Ut. lists at ..	20.00
1055	1878 D.L.—A die lump break on the Liberty Cap. could identify this as button on cap variety. No chops. V. Fine RR. Brought 12.50 in the 1958 sale. Ut. lists at ...	18.00
1056	1879 D.L.—5 or 6 ornately design chops. One in center of the cap. Interesting one on the eagle's left wing. F.-V. Fine. Brought 10.00 in the 1958 sale. Ut. lists at 8	18.00

- 1057 1879 ML—No chops, clear struck and very sharp. Save for a little roughness on the upper right side at Kolt 2 position. This is caused by the planchet being undersized at this point. Actually no sign of wear. This Prac. Unc. RRR. Not in the 1958 sale. Ut. lists at 30.00 which we feel is much undervalued. 15.00
- 1058 1880 ML—Light Pin scratch. Monogrammed EL at top of coin in K 12 position. Reverse has one chop. V. Fine. Sold in the 1958 sale at 12.00. Ut. lists at 15.00
- 1059 1881 ML—No chops. A little roughness at K1-3 and a little at the date. Very little wear. Prac. Unc. RR Sold at 12.50 in the 1958 sale. Ut. lists at 15.00
- 1060 1882 ML—Tiny rim nick at K. 12. A crude chop under the eagle's head. V.G. Fine. RR Sold in the 1958 sale in E.F. at 3.75. Ut. lists at 6.00
- 1061 1883 ML—Double cut 8's in the date. Very little wear. Ext. Fine. RR Sold in 1958 at 2.50. Ut. lists at 6.00

- 1064 1886 ML—Open top 8's. Several interesting designed chops. Also a simple pin scratch (X). Money charger's marks, one on the obverse and another under the eagle's wing. Ext. Fine. RR. Sold in 1958 sale at 3.75. Ut. lists at 6.00. Owner paid 9.50

The Liberty Cap 8 Reales of CHIHUAHUA (mint marks CA)

- 1073 1834 Ca AM—Weak struck liberty cap. Also weak struck at (icana) of Mexicana. Die crack over top of date. Etc. Few light edge bumps and for general appearance V. Good-Fine. RRR. Some lustre still adherent, but due to weak strike appears as V. Good-Fine. Not in the 1958 sale. Lists in Ut. at 25.00. We believe this date is a great rarity. 25.00
- 1074 1840 RG—Mint file scratches thru the cap and the lower part of the rays. A heavy die break which caused the 8 of the date to become almost obliterated. Also most of the date is faint. Mint file marks across the eagle's breast and out to the lettering. AM are much closer than usual. V. Fine RRR. Not in 1958 sale. Ut. lists at 25.00. We believe it will bring more. 25.00

- 1075 1841 RG—Obverse, rather sharp. Reverse has evidence of an old cleaning job. Not too detrimental. F-V. Fine. RRR. Not in the 1958 sale. Ut. lists at 25.00. Should realize more.
- 1076 1843 RG—Tiny lettering dies used on this date. The 8 and 3 are blobby-weakly struck on the eagle's breast, thus F.V. Fine. RRR. A similar one sold in the 1958 sale at 20.00. Ut. lists at 25.00
- 1077 1846 RF—Three dots after "6" instead of the usual one. The reverse is in line, the eagle is bolder and sharper than any we have noted of this type. The last "A" in Mexicana is tilted to the right. There is a crude scratch chop under the eagle's left wing. Ext. Fine. RR. Removed from the 1958 sale. Ut. lists at 25.00. After much deliberation and consideration, even with the so-called bankers scratch mark authenticating this, it is our opinion that this could be a contemporary counterfeit.
- 1078 1848 RG—Open top 8's, the 4 of the date is tiny and "Die Drawd" have distorted it. Open top (R) in the mint Masters initials. A very peculiar chop mark above the eagles head and the breast is a little flat struck. The coin in general is Ext. Fine, and sharp but we are listing as V. Fine. RRR. Brought 20.00 in the 1958 sale. Ut. lists at 25.00
- 1079 1850 RG; Owner purchased this as a 1850-40. In our opinion, we can't see why? The 5 of the date is distorted but this is due to die failure, and in many cases as this one, the eye plays tricks on one. Thus tending to make one see what he is concentrating on. Str. V. Fine. RRR Brought 17.50 in the 1958 sale. Ut. lists at 25.00
- 1080 1851 RG—Sold to the owner not as an over date, but as a six under the 5 of the date. This again was caused by the die draws which are conspicuous at most of the lettering. This coin has very little wear, but it has a dark sediment near the rim. Otherwise Ext. Fine. RRR Not in the 1958 sale. Ut. lists at 25.00
- 1081 1854 RG—Purchased as 1854 over 4. The only thing that we can make out of this is that the engraver did try to improve on the (854) and finally messed up the whole deal. Also the R has an open top. This coin is Ext. Fine with considerable lustre. RRR. Not in the 1958 sale. Ut. lists at 25.00
- 1082 1855 RG—Most letters and numerals are double outlined. Especially the Value 8, 8 in the date. The last 5 has an extra cross stroke. 3 dots after the date. The 2 of 20G and the small s after D are very doubled. Reverse. a heavy engravers mark over A and M. A die crack starts at the E of Republica and encircles the coin into the leaves. Brill Unc. with prooflike surface. RRR. 1958 had a fine one and it sold for 25.00. Ut. lists at 25.00
- 1083 1857 JC—We list this as JC but assayer initials sure look like IC due to the fact that the right side of the stand has a serif. Three dots after the date. There is no period after Mexicana and a heavy die break is through the (X) of Mexicana. V. Fine RRR. Not in the 1958 sale. Ut. lists at 25.00
- 1084 1858 JC—Three periods or dots after the date. Reverse in line, "Repub" lumpy nature. No period after "Mexicana." V. Fine. RRR Brought 18.00 in the 1958 sale. Ut. Lists at 25.00
- 1085 1859 JC—Rather wide open top of 8 of date. The 5 is low and the 9 is high. Sharp Ext. Fine. lustre. RRR. A fine one sold in the 1958 sale at 17.50. Ut. lists at 25.00. The owner paid over this amount.

1091	1871 MM—The M's are sharper, a die crack near tops of the rays. 3 chop marks, 2 of which are ornate on obverse. Reverse has 3 also. A pin scratch (chop) between A-M, and another under the eagle's beak. Ext. Fine. RR. 1958 sale 20.00. Ut. lists at	25.00	_____

1093	1874 MM—Purchased as "struck over another date." In reality the 7 and 4 were recut for better placement, but this did not help too much. The downstroke of the 7 is wide, the 4 lays to the right. - | | | | |
|------|---|-------|-------|
| 1122 | 1849 CE—Bottom of E is too long. Coin has only the C mint mark. Purchased and described as having "Two flan plows", a better description would be two flaked out pieces, one nearly obliterating the R of (8R) value, another, larger flake out about ⅛" wide and ½" long at K 9 to K 9½. This is caused by poor metal annealing. V. Fine RRR. Not in the 1958 sale. Ut. lists this date at | 40.00 | _____ |

FRANCE

- 2084 One Ecu, 1651. Laureated bust of Louis XIV bearing his titles King of France and Navarre. A large crown and shield. "B" mint for Rouen. V. Fine. We may be optimistic but we feel that this coin should realize more than 150.00
- 2085 Ecu 1666 (?) Young bust of Louis XIV, with title of King of France, Navarre and Bearn, Crowned $\frac{3}{4}$ arms. Coin had been mounted at K11 and evidence of reworking after date. Otherwise the coin is sharp. V. Fine, very rare, should exceed 100.00
- 2086 Broad Ecu. 1695. Older bust of Louis XIV, struck over an earlier coin, and by turning bust of Louis to K 6 position, the small date 1690 is clearly visible to the naked eye. Rev. crowned circular arms within palm sprays. After the date the mint mark "O" for Clermont. VG-Fine. Rare enough to bring about 100.00
- 2087 Ecu, 1704. Dav. 1320. Older head of Louis XIV. Arms of France surrounded by 4 double L's crowned with fleur-de-lis between. This coin is virtually uncirculated, as is evidenced by the clarity of the original legend on the obverse. This restriking of older coins was usual to the period due to the king's efforts to finance his courts and wars. An excellent example of this period in the history of France. Should easily exceed 200.00
- 2088 Ecu, 1709A. Dav. 1324. Bust of Louis XIII, 3 crowns form a triangle with fleur-de-lys between each. Mint mark "A" for Paris in the center. V. Fine. Lists at 36.00
- 2089 Ecu 1704, Dav. 1321. Bust of Louis XIII, similar to above with 4 double L's crowned and fleur-de-lys between. This coin was also struck over an earlier one, but this time parts of the earlier reverse is clearly discernible under the restruck obverse and traces of the old obverse, are visible under the restruck reverse. This is a most unusual coin and bidding should be spirited. F.-V. Fine, could possibly exceed 100.00

Unc. Also, letter to G.E. Miller from the then secretary, April 4, 1934 enclosing these and defending the association from Miller's charge of "gouging." This evidently had to do with the Association's refusal to provide free scrip to collectors and sale of specimens before and after Dec. 31 only at face value, on grounds that nothing would have prevented unscrupulous persons from obtaining specimens free for collections, thereafter redeeming them at face; and that charging face value afterwards would protect the value of those earlier issued to collectors. Total of 4 Pcs.
- 3228 — — Village of Lowville. \$1.00, \$5.00 and \$10.00 Scrip. No date, but evidently March, 1933. - 3235 — — Poughkeepsie 50c specimen note of Eastman College Bank. F.B. 130, 2" x 4¼, oval vin. of Washington right; elaborate denomination left, space for number and autographs. Pink on white bond paper. E.F. plus, really Unc. but on slight crease. Scobell (VP AND Comptroller) and J.C. Collins (Treasurer), though they are not identified as to offices held. The paper has been chemically treated in such a way as to reveal VOID repeated in obv. design, and overprinted in red SAMPLE — NOT VALID over signatures. Reverse, Within same border, agreement by company to accept this certificate in payment of accounts due, or payable in cash at the Lincoln-Alliance Bank & Trust Co., Rochester, "at such time as said bank is permitted by law to release funds now on deposit." Unc. Also a letter to Mr. Lazar from F. H. Patterson, Secy. & Asst. Comptroller, May 17, 1934, enclosing this piece and advising that the entire issue, save for "a negligible amount still outstanding with the public, probably souvenir collectors for the most part," was "cremated when the need for it passed." This example is said to be representative of the (Unnamed other denominations) in size and style. We conjecture \$5.00 and \$10.00 and reserve F.B. 144 and 145 for these denominations should any survive. Under the circumstances, doubtless of extreme rarity. Total 2 Pcs.

Also, letter from B.J. Lazar to the school requesting scrip, Nov. 1, 1933 endorsed at bottom by one E. Reed to effect that the scrip was only in use for trade

- among school children, not by the school itself, and passing along a rumor that the Atlantic City, Camden, N.J. school systems and Nyack Chamber of Commerce used Scrip. Finally, a carefully Calligraphed letter to Mr. Lazar, May 18, 1934, from Alan Watson, "Behalf of 7B" explaining how the 6th and 7th graders had established a bank which issued the enclosed scrip, which the kids earned by working for the school, using it in bartering things sent from home, and finally obtaining privileges by turning in the scrip. Very unusual, doubtless very rare. 6 Pcs. .

At bottom, Note: 5% Exchange Stamp is affixed to cover deposit fee for service. Autographs of Helena C. Clay, Mabel Cox. No exchange stamps on any of these. First two cancelled with red rubber-stamped star, third not, but with reverse sample endorsement and showing sample transactions of the kind actually made with these tokens. Nos. 991, 916, 913, we conjecture that only 1000 were originally made for this (then) small face-to-face community, and that the only ones not cancelled and destroyed were the few samples sent out to collectors, like these. Also, two letters to G.E. Miller from Helena Clay, who ran the Trading Post, explaining how the system worked and apologizing for the delay in sending the tokens as she was even then liquidating the project. Evidently very rare. 5 Pcs.

Finally, clippings from American Banker, April 11, 1939, and Wall St. Journal, Sept. 16, 1938, about this scrip, indicating that some \$1,000,000 had been authorized but only \$53,000 actually issued, most of it refusing to circulate, and when courts stopped the experiment in August 1936 holders of \$29,182 in scrip were paid off at 17c per \$1, the remaining victims receiving nothing, as they had accumulated only \$5030 in the redemption fund, and voters had twice killed tax and bond proposals to pay off these obligations. The writers speculated that the rest must have been used to start bonfires or kept as souvenirs. 7 pcs.

Obv. has red serial nos. L 1125, Y 4351, S 10711 respectively. Unc. F-VF (2). Also, letter from Mr. Lazar to C. B. Anderson, cashier of Coolidge & McClaine, Bankers in Silverton, dates Jan. 19, 1937, with Anderson's appended note enclosing these. As Lazar had not even heard of any such issue until the beginning of 1937, the presumption is that these notes were limited and rare, today rarer still. 4 pcs.

3352 — — St. Helens, CHAMBER OF COMMERCE SCRIP. March 8, 1933. \$1, \$2, \$5. F.B. 114-116. On rather thick stiff pale buff paper, 2 9-16 x 6½", in green ink (except for serial nos. and printed signature), city name and title, issue date. St. Helens, Oregon, this certificate represents (spelled denominations flanked by numerical denominations) and can be exchanged for that amount if government authorized certificates or cash when payroll checks for the industries listed below, 'held by the St. Helens Chamber of Commerce, are exchanged for the same. (Follows a list of 6 authorized firms which had turned over payroll cheques to the Chamber of Commerce to cover these; limitation date March 8, 1934; Chamber of Commerce title and two printed signatures of president and secretary. HELENS SENTINEL-MIST—PUBLISHING CO. and space for autograph of Jessica L. Longston, President. Lower left, space for date issued. VF-EF (3) and Unc., all cancelled PD and a date in 1933 or early 1934; all autographed. The 50c and \$2 have issue dates 1-8-34 and 1-31-34, the latter with the date 1933 in text changed by hand to 1934; the others 7-31-33 and 8-26-33. Rev. Within same border as obv. denominations in 4 corners left and right, spelled denominations c; at bottom, "This paper manufactured by" same firm as preceding lot. The serial numbers are doubtless coded the 1, 2 and 5 on the three higher denominations obviously referring to the

denominations. It is therefore doubtful if as many as 1000 of each had been made, which is plenty for a town of 4000 population. Also, letter from Ruth Urie Weed of the newspaper, Oct. 24, 1934 to Mr. Lazar, enclosing these and noting that they were used in payrolls, being redeemed from local merchants. Amount issued until then not available because the firm was "still using the scrip to a certain extent". Beyond question, very rare. 5 pcs.

- 3360 — — Erie CITY OF ERIE TAX PLEDGE WARRANTS. \$1, \$5, \$10. May 1, 1933. F.B. 40-42. 2 $\frac{5}{8}$ x 6 $\frac{1}{8}$ on Protod-Greenback paper (grap-green), resp. in black, brown and blue ink. Within elaborate border, bust of Indian with 2 feathers in headdress at left, numerical denominations 6 times; city name and title, issue date, value of (denom); below, obligation to pay by Jan. 10, 1935 or receive the warrant in payment of city taxes, pursuant to Ordinance Bill No. 7645. Printed signature of Thos. Mehaffey, director, Dept. of Accounts & Finance, and R. T. McDonald, city controller left; James P. Rossiter, mayor, lower right. Overprint in red SAMPLE — NOT VALID. Rev. At left, eagle on worldglobe on which is draped a U.S. Flag. Schedule of rates above par at which the city would receive these warrants for taxes; during 1933, at 4% above par on 1932 taxes, 8% on 1931, 12% on 1930, 16% on earlier; during 1934, at par for all prior taxes; after July 1, 1933 at par on 1933 taxes, etc., the whole within border incl. four denomination numerals at corners. Unc. Also, a copy of City Council Bill No. 7645, passed April 25, 1933 authorizing \$300,000 in these warrants, but not specifying amounts of any given denomination. Also photostats of three clippings from Erie Daily Times, June 21, 24, 30, 1933, about the abysmal failure of the scrip plan to stimulate payment of back taxes, the high bookkeeping cost on issue and redemption of the scrip, and the abandonment of further scrip issues after some \$200,000 had already been paid out. This last mentioned that scrip would no longer be acceptable for 1933 taxes; in effect a repudiation. The presumption is that city and private holders destroyed the worthless paper, presumably very rare. Finally, a letter to Ross Pier Wright on behalf of the "Federal Reserve System people" (Presumably B. J. Lazar) from Thos. Mehaffey, Dec. 4, 1933, enclosing these samples. In all 7 pcs.
- 3361 — — Erie County POOR BOARD WARRANTS. \$1, \$5, \$10. April 15, 1933. F.B. 43-45. Below, five printed signatures. Uniface. All perforation cancelled PAID 1-13-34, the bank number 60-81 (?) partly or wholly off the notes; rubberstamp CANCELED lower left. Unc. The prefix numbers 4, 5 and 6 in the serial nos. probably are code for the respective denominations, wherefore it is unlikely that more than 10,000 apiece could have been made, numbered 40000-49999, 50000-59999 and 60000-69999 respectively, possibly less. Undoubtedly rare, very likely sharing in the debacle of the city scrip in the last lot. 3 pcs.
- 3362 — — Identical to preceding trio, except without serial nos. and overprint in red SAMPLE — NOT VALID. Unc. Rare. 3 pcs.
- 3363 — — Security-Peoples Trust Co. (CENTRAL BRANCH rubberstamped in red) essays for scrip, March 10, 1933. \$1, \$5, \$10. F.B. 46-48. Exceedingly rare, **not known to Lazar** but obtained from another source; the only ones seen or reported. Prefix digits 5, 2 and 1 probably refer to denomination in code. Among the most desirable items in this offering; estimated by consignor in three figures.

White paper ("planchette safety paper") without watermark or inclusions, but of hard finish and great toughness. Within open overlapping-scallop border, Copyright 1933 by (firm name—city)—WILL PAY TO BEARER IN TRADE (denominations spelled in oblong frame, differing in color with each denomination). Left and right, serial no., right serial no. always inverted. Below, autographs of comptroller and treasurer, resp. J. Leon Cort and Curtis Bok. Rev. All hole cancelled at signatures and rubberstamped

CANCELLED; average F-VF, some stains. Also, pasted back to back, letters from Cort to Crosswhite, July 20, and to G. E. Miller, July 14, describing the scrip and promising later shipments of cancelled notes. One interesting discrepancy is that in the letter to Miller he mentioned that the \$1. would be printed in blue, and the \$5 was not mentioned; in the later letter to Crosswhite he mentioned the \$5 but did not describe the color. As he sent Crosswhite a "cancelled "misprint", not otherwise described, possibly this is the \$1 in wrong color, and the \$1 should have been blue, the \$5 yellow-green. Doubtless very rare, issue known to be very limited. In all 6 pcs.

Series A totaled only \$583.50, D and F \$21,000 each, the others \$4500 to \$9850, total in all \$100247 of which only \$72 remained outstanding (presumably as souvenirs). F.B. numbers 30-42 are the thirteen series of \$1's, 43-55 the \$2.50 notes, 56-68 the \$5's, 69-81 the \$10's. We have no proof that examples survive even in cancelled form of all these. There may be other color variants besides those here described. William's letter also indicates that the scrip was never discounted and in fact was in greater demand than available supply as of call date (Oct. 20, 1933) owing to the interest. If not mere braggadocio, this may be one genuine instance of successful city scrip — in contrast to that of Erie, Pa. Presumably very rare. 7 pcs.

Unc. Also, letter from John Kristensen, Sept. 16, 1933 to W. O. Crosswhite, enclosing these, offering a set of Kristenstad tokens at \$2.10 (face

plus postage and registry, but denoms. not specified). small folder, reprint from Texas Weekly of August 29, 1931, and reprint from some unspecified paper, Oct. 10 (1931), the gist of these being that Kristensen, Jan. 1, 1927, bought some 6000 acres of land just S. of Brazos river, 15 miles SE of Granbury, 12 miles W. of Cleburne, and founded a utopian co-operative self supporting community then (1931) numbering some 146 landowning families and several industries: sawmill, chair factory, Charcoal plant, Southern Dairyman magazine (Circ. 25,000 monthly), with others pending. As the 1931 reprint mentions this scrip, probably earlier dates exist, but we have no information about them. As our atlas does not show Kristenstad, we do not know if it is still in existence or is merely too small to be shown on the map. Information from TAMS solicited on the metallic tokens. There is material here for a possibly prize-winning numismatic study for any collector willing to undertake the necessary research. Presumably rare, certainly of extraordinary interest—eventually comparable to the money of the early Mormon settlers in Ohio, Illinois and Utah. 10 pcs.

3399 — — Olney, N. border of Young county, a little S. of Wichita Falls (1932-33?) "Rabbit tail money", F.B. 30. Two specimens of jackrabbit tails (mixed brown and white), well preserved, in celluloid holder, together with letter from Joe C. Benson, Cashier, First National Bank in Olney, Dec. 22, 1936, to Mr. Lazar, explaining this extraordinary currency. It appears that one Edwin Hill, then Olney Chamber of Commerce secretary, in order to promote local retail trade and to reduce the number of local jackrabbits, organized about 5 nearby communities, staged "rabbit drives". Olney merchants furnishing shotgun shells at cost; then on several successive Mondays Olney merchants offered wrapped grab-bag prizes at auction, with jackrabbit tails accepted as the medium of exchange. Over 6000 tails were received in all, "sometime before the banking holiday"; the scheme received national publicity and specimens supposedly rest in collections all over the country including that of the Chase Manhattan Bank Money Museum. The specimens here offered are authentic as the letter shows: there is no reason to doubt that unscrupulous dealers could offer newly chopped jackrabbit tails as specimens of this extremely interesting "odd and curious" money. Doubtless very scarce. 3 pcs.
